Glen-Gery Residential Paving Brick

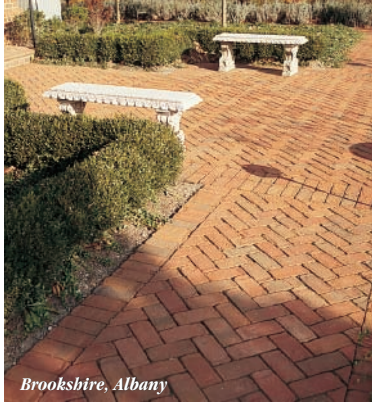

Genuine brick pavers in patios, walkways and driveways harmoniously connect your home to the outdoor world through customized landscape designs that define your mood and tastes. The permanent earth tone colors and varied textures suggest the richness of nature itself. Pavers are available in several sizes in either the soft silhouette of molded brick or the crisp lines of precision extruded.

Tough, durable and stain resistant brick pavers combine in decorative bond patterns for stability and strength as well as to enhance the beauty, individuality and value of your home.

Glen-Gery recommends that Paving Brick selection should always be based on an actual product sample.
